PGConf.EU Venue Requirements 2027

Introduction

PGConf.EU 2027 needs a venue for 700 to 800 attendees over four event days in late October, plus a partial set-up day before and a partial tear-down day after. Preferred days are Tuesday to Friday; Monday to Thursday is the alternative. We generally prefer the 2nd-4th week of October, and it's important to avoid major holidays (local or common across many other countries in Europe).

PostgreSQL Conference Europe is the annual conference for users and developers of PostgreSQL and related projects. It is organised by PostgreSQL Europe, a non-profit association registered in France, and has run since 2009 (excluding 2020 and 2021). Recent editions:

Year	**City**	**Venue**	**Attendees**
2026	Valencia	Palacio de Congresos	~750 (projected)
2025	Riga	Radisson Blu Latvija	675
2024	Athens	Divani Caravel	782
2023	Prague	Clarion Congress Hotel	722
2022	Berlin	Berlin Marriott	604
2019	Milan	Milan Marriott	560
2018	Lisbon	Lisbon Marriott	450
2017	Warsaw	Warsaw Marriott	437
2016	Tallinn	Radisson Blu Hotel Olümpia	400
2015	Vienna	Vienna Marriott	401
2014	Madrid	Hotel Miguel Angel	318
2013	Dublin	Conrad Dublin	238
2012	Prague	Corinthia Hotel	291
2011	Amsterdam	Casa 400	188

How to use this document

This is a complete specification, not a summary. Please quote against every item; if it helps, the optional Venue response form at the end lets you answer all of them in one table. Where an item is not possible, say so explicitly and propose an alternative. Where an item carries a cost, it must appear as a line in the quote. Anything the venue would require us to buy, hire or staff that is not listed here must also be declared in the quote (see Contractual requirements).

Throughout, "Day 0" is the partial set-up day, "Days 1 to 3" are the main conference, "Day 4" is the community day and "Day 5" is the partial tear-down day.

Contractual requirements

This document, and the venue's written response to it, must be incorporated into the final agreement by reference, and every foreseeable charge must be in the quote before signing.

C1. This document forms part of the agreement

The signed agreement must state that this requirements document (at the version attached to the agreement) and the venue's itemised response are contractual. Where the agreement's own terms conflict with this document, this document prevails unless the conflict is listed and accepted in writing before signature.

C2. All foreseeable charges must be quoted

The quote and agreement must include every charge the venue knows, or could reasonably be expected to know, will apply to an event of this size and type. This includes, without limitation:

- Any staff the venue, its insurers, local law or local authorities require to be present (for example fire marshals or fire watch, security, first aiders, medical cover, maintenance or electrical technicians, porters, cleaners, lift or loading bay attendants).
- Labour for installing, testing or removing anything we have specified here (for example power distribution, furniture, staging, AV, signage, stand construction).
- Access outside normal hours, including early starts, late finishes and set-up or tear-down days.
- Mandatory items (for example carpet under exhibition stands, levelling for stands on ramps, cable covers).
- Mandatory or exclusive suppliers (caterer, AV, freight or handling, furniture hire), with their prices.
- Service charges, handling fees, administration fees, card surcharges, local taxes and VAT.
- Waste disposal, cardboard or packaging removal, and cleaning.
- Fees for selling merchandise on site, if any.

The venue is best placed to know its own obligations; we are not. If the venue knows that, for example, a fire marshal must be on site during the event, that must be in the quote, not raised later.

C3. No undisclosed charges after signature

Charges that were foreseeable at signature but not quoted will not be payable. New charges after signature are payable only if they arise from a change we request in writing and we accept a written quote for that change before the work is done.

C4. Included staff and services must be itemised

Where the package includes staff (for example technicians, porters, hostesses, IT support), the agreement must state the number of each role, their hours on each day, and what each role will and will not do. A general statement such as "technicians included" is not sufficient.

C5. Pricing, currency and validity

Prices must be in a single currency, stating whether VAT and local taxes are included. Quotes must be valid for at least 60 days. Unit prices for common extras (additional power points, extra chairs, extra technician hours, extra catering covers) must be listed so that late changes can be costed.

C6. Minimums, attrition and cancellation

State any minimum spend, minimum catering numbers or room-block guarantees, the dates by which numbers can be reduced, and by how much. Our attendance is not final until shortly before the event; we need to be able to adjust catering numbers up to 7 days before without penalty. State the cancellation schedule, including force majeure.

C7. Payment schedule

State all deposit and prepayment amounts and dates, and whether card payment carries a surcharge. PostgreSQL Europe pays by bank transfer.

C8. Overall coordinator

One named venue coordinator must have overall responsibility for the event from signature through to final invoice, with a named deputy for the event days. We are happy to work directly with the catering, AV and IT managers on the detail, but the coordinator remains accountable for the whole and for any third-party suppliers the venue requires or recommends.

Access, set-up and tear-down

On Day 0 we need the office all day and the common areas from lunchtime; the rooms must be fully set and tested before Day 1, and any staff needed for our access hours must be in the quote.

Day	Access we need	What happens
Day 0	Organiser office from 08:00; common areas (foyers, registration, exhibition, lounges) from 12:00; until at least 19:00	We set up the office and registration and receive deliveries; exhibition stands, carpet and power built; sponsors set up from 12:00. The venue sets up AV, staging and seating in the plenary and breakout rooms at times of its choosing, ready and tested before Day 1.
Days 1 to 3	07:00 to 19:00 (later on the evening reception day)	Conference; sponsors on stands from 07:00
Day 4	07:30 to 19:00	Community day
Day 5	Office, 08:00 to 13:00	Collection of sponsor and organiser goods

Requirements:

- A1. The booking must include the Day 0 access above. Setting up talk rooms (AV, staging, seating) is the venue's responsibility and must be complete and tested before doors open on Day 1; the venue may schedule it as it wishes, but any cost of doing so must be in the quote.
- A2. Any security, maintenance, electrical or other staff the venue requires for early access, late access, Day 0 or Day 5 must be quoted.
- A3. The venue must confirm that no other event uses our rooms on the afternoon of Day 0 and all of Days 1 to 4, and must tell us about any other events in the building on those days. For each, state which shared areas (foyers, lifts) it will use and at what times, and how catering in shared areas will be kept separate and clearly marked so attendees know which food and drink is ours.
- A4. Room changeovers we request (for example re-setting a room from theatre to classroom overnight) must be quoted, with the porter hours needed.

Conference days (Days 1 to 3)

Days 1 to 3 need a plenary for up to 900 in theatre style and four breakout rooms (three of 300+, one of 200+), plus sponsor stands (see the Sponsor exhibition section below), a lounge and a quiet room.

Space	Capacity and layout	Notes
Plenary	700 to 900, theatre	May be the same space as breakouts if any partitioning is done within a 30 minute break, including attendees leaving and re-entering. State who does the partitioning and whether it is charged.
Breakout rooms	3 x 300+ and 1 x 200+, theatre or classroom	Some flexibility on sizes. Each needs AV as in the AV section.
Hacker lounge	~25 people, mix of tables and sofas	Power at every table (see Power).
Quiet room	6 to 8 people, comfortable seating	Away from the busy areas; for rest and recovery, not meetings.
Speaker ready area (optional)	6 to 10 people	Table, power and a monitor with HDMI for slide checks. May share the organiser office if large enough.
Breakfast or side-event room (optional)	40 to 60, round tables	Early morning on one day, for example a sub-group breakfast. Quote room and catering separately.
Sponsor meeting room (optional)	~10 people, boardroom style	A room we offer for our sponsors to book for meetings they may want to hold, if additional space is available.

- R1. Theatre seating counts must be the real number of chairs we will get after stage, AV desk, camera positions and fire aisles, not the brochure maximum.
- R2. The venue must state which rooms are shared or visible to other events.
- R3. Room names, capacities and a floor plan must be in the response.

Community day (Day 4)

Day 4 needs 5 to 6 rooms for up to 300 attendees plus about 12 staff, in classroom layouts.

Item	Requirement
Rooms	5 to 6 rooms, minimum 50 each in classroom, with flexibility for more and less popular sessions (for example 3 x 50 and 3 x 100).
Power	Power strips in rooms at roughly one strip per 3 seats (see Power).
Catering	Coffee, water and lunch for up to 300 (see Catering).

- D1. Layouts are finalised about 4 weeks before the event. State the deadline for layout changes and the cost of any change after it.
- D2. If any rooms used on Days 1 to 3 are reused on Day 4 in a different layout (for example theatre to classroom), the overnight changeover must be quoted (see A4).

Audio visual, staging and recording

Every room we use for talks must have working projection and sound, with enough technicians on site to resolve problems promptly, and set-up, testing and staffing included in the quote.

Per-room kit

Item	Plenary	Breakouts (Days 1 to 3)	Community day rooms
Projection or screens	Large enough for 900 to read slides	Large enough to read slides from any seat in the room	Large enough to read slides from any seat in the room
Laptop input at lectern	HDMI, plus USB-C adapter	HDMI, plus USB-C adapter	HDMI
Laptop audio	3.5 mm jack at lectern	3.5 mm jack at lectern	Not required
Microphones	2 handheld, 2 lavalier	1 handheld, 1 lavalier	1 handheld, 1 lavalier wherever room size requires amplification
Mixer, amplifier, speakers	Yes	Yes	Where microphones are used

Item	Plenary	Breakouts (Days 1 to 3)	Community day rooms
Confidence monitor facing speaker	Preferred	Preferred	Not required
Stage and lectern	Stage, lectern, stage lighting	Lectern; stage if needed for sightlines	Lectern or table

- AV1. State per room exactly what is installed and what is added for us, with the cost of each addition.
- AV2. State whether a stage, head table, stools or lighting is included in each room, and the cost if not.
- AV3. Enough technicians must be on site during sessions to respond to a problem in any talk room within a few minutes; one technician covering two nearby rooms is acceptable, as is one per room if that is the venue's norm. Cover is needed for sessions, plus whatever set-up and test time the venue needs before Day 1. State the number of technicians included and their hours; C4 applies.
- AV4. Each talk room's mixer must be able to provide a clean line-level audio output to our own equipment, for the live captioning option. State the connector type.
- AV5. Laptop changeovers between talks must take no more than 5 minutes.

Video recording

Recording is desirable in all talk rooms on Days 1 to 3. Quote it as an option with all equipment, staff and editing included.

- V1. One fixed camera on the speaker per room is sufficient. Multiple cameras are acceptable if there is no cost increase.
- V2. Audio must come from the room's sound desk (speaker microphones), not the camera.
- V3. Output is a single composed video per talk: our background frame, slides in one window, speaker in the other, with our opening and closing slides added. We supply the frame and slides; the design is agreed in advance.
- V4. Files must be ready for direct upload to YouTube (1920x1080), delivered electronically or on drives we keep, within an agreed time after the event. State the delivery date.
- V5. Examples of what we expect: example 1, example 2.

Optional services (quote separately)

- Live captioning (option we may take): we may run our own captioning (and possibly translation) system in some or all talk rooms. In each room we place a small computer that takes the mixer's audio output (AV4) and sends text, not audio, to a cloud server; attendees can also follow on their phones via a QR code. Per room we need: the audio output from the mixer; power and a secure spot for the computer near the mixer or stage; outbound internet access (through our own router if needed,

W6); and a 65-inch monitor on stage, visible to the audience, with an HDMI input we can drive from our computer, including any cable run from the mixer position to the stage. Quote the monitor and any cabling per room per day, and confirm the audio output is included.
- Simultaneous translation. We do not expect to use this, but quote if offered.

Power, furniture and room dressing

We need roughly 120 multi-socket power strips (standard local mains outlets capable of charging laptops/phones and powering monitors etc) across workrooms, lounges and stands, installed and removed by the venue, with the equipment and all labour in the quote.

Power

Location	**Requirement**
Classroom rooms (mainly Day 4)	One 3-socket strip per 3 seats, cables taped or covered
Hacker lounge and other lounge seating	One strip per table plus sofa areas
Registration desk	At least 4 sockets
Each sponsor stand	At least 3 sockets
Organiser office	At least 8 sockets
Speaker ready area	At least 4 sockets, if the optional speaker ready area is provided
Plenary and breakout rooms	Sockets at the lectern and the front row for speakers

- P1. Quote power as a single line per location, including the strips, any distribution boards, cable covers and the technician hours to install and remove them. A per-unit rental price alone is not enough.

Furniture

- F1. List the furniture included free in each room and area (tables, chairs, lecterns, sofas, bar tables), and the price of anything additional.
- F2. If venue furniture is free but carrying and setting it up is charged, quote that labour.
- F3. Lounge and quiet room furniture (sofas, armchairs, low tables) must be in the quote, with photos or model names.
- F4. State any limits on the venue's own stock (for example chair counts) that would force hire.

Registration, signage and wayfinding

Registration needs about 6 m of desk in a prominent spot, ideally near the main entrance, with storage space behind it and power, available from Day 0.

- G1. Registration: 3 tables of 1 x 2 m (an L shape is fine) or equivalent built-in counter, at least 1.5 m clear behind for boxes of T-shirts and materials, and power. We also sell merchandise here. If there is a fee for selling merchandise on site, state it.
- G2. If the venue has fixed registration counters, give their length and whether a second area is available for merchandise.
- G3. Signage: state what printed and digital signage is included, the cost of anything extra, whether digital signage is priced per day or per event, and the artwork deadlines.
- G4. Digital signage must be updatable during the event if the schedule changes. State who does this and whether it is charged; if it needs a paid technician, quote it.
- G5. State whether we may put up our own banners and pull-up stands, and any fixing rules.
- G6. State whether the venue provides flag poles, how many can be used and quote the price per flag and day.

Sponsor exhibition

We need 12 to 15 sponsor stand spaces (4 to 5 Platinum, 8 to 10 Gold) of the same size, in high-traffic areas near catering, used on Days 1 to 3 with set-up on the afternoon of Day 0.

Item	**Platinum**	**Gold**
Number	4 to 5	8 to 10
Position	The highest-traffic positions	Other good-traffic positions
Furniture	Table of about 2 x 1 m (or the closest available, for example two narrow tables pushed together along their long edges) and 2 chairs	Table of about 2 x 1 m (or the closest available, for example two narrow tables pushed together along their long edges) and 2 chairs
Power	At least 3 standard local mains outlets	At least 3 standard local mains outlets

- X1. The venue must confirm the layout fits, accounting for fire exits, ramps and escape routes, before the quote. Any stands needing levelling or other adaptation must be identified and costed.
- X2. Each stand needs room for a table of about 2 m wide, space behind it for sponsor staff, chairs and roll-up banners or a screen, and space in front for attendees to stop and talk without blocking walkways; about 3 m wide by 3 to 3.5 m deep in total. Platinum and Gold stands are the same size and differ only in position.

- X3. State any mandatory items for stands (for example carpet) and their cost. If carpet is mandatory and a choice of colours is available, we would like one as close as possible to PostgreSQL blue, #336791. If the venue only offers colours matching its own decor, that is fine; state what they are.
- X4. Sponsors may replace our standard table and 2 chairs with other furniture (for example bar tables, stools or armchairs). Any furniture change on a stand must be approved by us before the venue carries it out. State prices and the deadline for changes.
- X5. Sponsors may bring their own screens (LED or OLED, not projectors) or hire them. Provide the price list for hired screens, including monitors on stands and desktop monitors. Sponsors must be allowed to bring their own roll-up banners. If sponsors are not allowed to bring any other equipment (screens, lighting, furniture or anything else), or bringing it incurs a fee (for example electrical safety checks or handling), the venue must state this in the response.
- X6. Provide the exhibitor handbook with all prices when responding, not after signature.
- X7. Sponsors must have access to the exhibition area from 12:00 on Day 0, when we do, and from 07:00 on Days 1 to 3.
- X8. Sponsor extras are arranged through us: either we handle the request, or we put the sponsor in touch with the venue team. All billing for sponsor extras must go directly to the sponsor. PostgreSQL Europe will not accept invoices for anything a sponsor adds, including equipment or furniture hire, shipping and handling, additional rooms, catering or services.

Deliveries, storage, handling and the organiser office

We need a lockable office of at least 25 m² from Day 0 to Day 5, and the venue to receive our shipments at least a week ahead and deliver them to us; we do not need dock access ourselves.

- L1. Organiser office: minimum 25 m², lockable, with tables, chairs and power, available from Day 0 (morning) to Day 5 (midday) for storage, sponsor materials and event management.
- L2. Receiving shipments: the venue must accept shipments for us and our sponsors from at least 7 days before Day 0 and store them securely. State the delivery address, labelling format and any limits on size or number of items. We do not expect truck-sized shipments.
- L3. Delivery to us: either venue staff take shipments to the organiser office, registration desk or the correct sponsor stand, ready for when we and the sponsors arrive on Day 0, or the venue makes them available for us to collect from an accessible point such as a loading dock or storage room, with trolleys we can use. State which applies. Handling of organiser shipments must be in the quote. If handling sponsor shipments is charged, it must be billed directly to the sponsor (X8).
- L4. If the venue requires or recommends a freight or handling company, name it and provide its prices. PostgreSQL Europe does not handle sponsor billing, payments or customs; sponsors deal with the forwarder directly.
- L5. For shipments from outside the EU or the venue's customs area, state what the venue needs (for example EORI or tax ID of the recipient) and who is the consignee.

- L6. Return shipments: venue staff collect packed and labelled items from the office and stands after the event and hold them for courier collection. State for how long and any charge.
- L7. Waste: state any charges for cardboard, packaging or waste removal, and the rules for leaving materials behind.

Catering and evening reception

We need coffee, tea, cold drinks and water all day and a buffet lunch on Days 1 to 4, with numbers adjustable up to 7 days before the event.

Day	**Covers**	**Service**
Days 1 to 3	700 to 900	Hot and cold drinks available all day, including from registration opening; water always available; mid-morning and mid-afternoon breaks; buffet lunch
Day 4	Up to 300	As above
Reception (Day 1 or 2 evening, preferred not required)	All attendees	Bar and buffet snacks; drink tickets preferred to a fully open bar

- K1. If catering must come from an exclusive or in-house caterer, it must be quoted with the venue proposal, ideally in the same contract. State any corkage or outside-catering fees.
- K2. Water: state how it is provided (fountains, dispensers, bottles, carafes), how many points, and the cost per day. Water must be available throughout the day, not only at breaks.
- K3. Dietary needs: vegetarian, vegan, halal, gluten-free, lactose-free and common allergens must be catered for and labelled, at no extra cost per cover.
- K4. State minimum numbers, the final-number deadline, and any charge for reducing numbers (C6 applies).
- K5. Quote the reception separately, with price per head and the cost of drink tickets, bar staff and extended hours.

Wi-Fi and network

Wi-Fi must support 2 devices per attendee (up to 1,800 devices) across every area we use, preferably on a dedicated network with no captive portal, and its full cost must be in the quote.

- W1. Strongly preferred: a custom SSID and password agreed with us, with no captive portal or registration page.
- W2. State the total uplink bandwidth for our network and any per-device limit. Per-device limits must be described as they actually work (for example "2 Mbps per device, 800 Mbps total"), not as a notional per-user figure.
- W3. Coverage in all rooms, foyers, the exhibition, catering areas and lounges, sized for 900 people in the plenary at once. Our payment terminals and ticket scanners also use Wi-Fi.
- W4. If a custom SSID or higher capacity is charged, quote it. State the included standard service as well.
- W5. A named network contact must be reachable during the event.
- W6. Required: we must be allowed to connect our own routers to the venue network and bridge our devices through them, including through any captive portal. These routers are for organiser equipment only (such as payment terminals and captioning systems) and will not be offered to attendees. Our payment terminals cannot operate behind a captive portal, so a venue that forbids this is not acceptable.

Venue staff, safety and security

The quote must list every venue staff role on site for our event, with numbers, hours and what each does, including any role required by law, insurers or local authorities.

Role	**What we need to know**
Event coordinator	Named person on site all event days (C8)
AV technicians	Number, rooms each covers, hours, and whether they cover recording and signage changes (AV3)
Porters or set-up crew	Number and hours; which changeovers are included (A4)
Maintenance or electrician	Number and hours; whether power installation is included (P1)
IT or network support	Whether they support our network during the event (W5)
Hostesses or floor staff	Number, hours and duties, and whether we can direct their tasks
Security	Whether required, for which hours (including Day 0, early and late access) and the cost
Fire marshals or fire watch	Whether required by law or venue rules for our attendance or hours, and the cost

Role	What we need to know
First aid or medical cover	Whether required, and the cost
Cleaning	Included cleaning during and after each day; any extra charges

- S1. Any role the venue knows will be required must be in the quote (C2). We will not pay for a mandatory role that was not quoted.
- S2. State the venue's maximum occupancy for each room and the building, and any evacuation or safety briefing we must give.
- S3. State the insurance the venue requires from us (for example public liability and the minimum cover).

Accessibility, wellbeing and inclusion

Every area attendees use must be reachable without steps or escalators, and the quiet room and any accessibility services must be costed in the quote.

- Y1. Step-free access to all rooms, foyers, exhibition, catering, lounges, toilets and the reception venue. Lifts must be large enough for wheelchairs and in service throughout.
- Y2. Accessible toilets on every floor we use.
- Y3. Reserved accessible seating in every talk room, with a clear sightline to the screen.
- Y4. Quiet room as in the Conference days section.
- Y5. If we take up the live captioning option (see AV optional services), the venue must provide what that option lists: audio output, on-stage monitor and cabling, power, and internet access.
- Y6. State whether assistance dogs are welcome and whether there is a relief area nearby.

Accommodation

Attendees book and pay for their own rooms at a conference rate; our liability for unsold rooms must be small and released late.

- H1. Hotel venues: a conference rate bookable directly via a link or code on our website, available at minimum from the Sunday before the event to the Sunday after (check-in Sunday, check-out the following Sunday), with a smaller allocation acceptable outside the main event nights.
- H2. Congress centres: we do not expect the venue to provide hotel rates, but it is helpful if it can suggest hotels within walking distance or a short public transport ride, ideally ones willing to offer a conference rate on terms similar to H1.
- H3. State any room-block guarantee or minimum nights, the release or cut-off date, and the attrition terms. A release date close to the event (2 to 3 weeks) is strongly preferred to one or two months before.

- H4. State all per-night taxes and fees that attendees will pay on top of the rate (for example city or climate taxes).
- H5. We book and pay for a small number of rooms ourselves (speakers and diversity scholarship recipients). State how these are invoiced.

Quote format and venue response checklist

The response must be a single itemised quote that answers every numbered item above, so that nothing is left to be priced after signature.

- Q1. One line per item, grouped by section of this document, with quantity, unit price, days and total. Mark each line as included, optional or mandatory.
- Q2. A separate list of every mandatory charge, supplier or staff role not requested by us (C2), with prices. If there are none, say so in writing.
- Q3. A response to every numbered item, using the optional Venue response form at the end of this document or your own format (C1 to C8, A1 to A4, R1 to R3, D1 to D2, AV1 to AV5, V1 to V5, P1, F1 to F4, G1 to G6, X1 to X8, L1 to L7, K1 to K5, W1 to W6, S1 to S3, Y1 to Y6, H1 to H5): "yes", "yes at cost X", or "no, alternative Y".
- Q4. Floor plans with room names and capacities, the AV dossier, the signage dossier, the exhibitor handbook and the current rate card.
- Q5. The draft agreement, showing where this document and the response are incorporated (C1).
- Q6. The deposit and payment schedule, cancellation terms and minimums (C6, C7).

Venue response form

This form is optional and provided for convenience. It covers every numbered requirement, so filling it in is usually the quickest way to respond, but your own format is fine as long as it answers every numbered item. In the Response column put Yes, Yes at cost, or No. Put any cost in the Cost column (the same figure should appear in your itemised quote) and any alternative or comment in Notes.

ID	Requirement (summary)	Response	Cost	Notes or alternative
C1	This document and your response form part of the agreement			
C2	All foreseeable charges, staff, suppliers and fees are in the quote			

ID	Requirement (summary)	Response	Cost	Notes or alternative
C3	Unquoted foreseeable charges not payable after signature			
C4	Included staff itemised by role, number, hours and duties			
C5	Single currency, VAT stated, 60-day validity, unit prices for extras			
C6	Minimums, attrition and cancellation terms; catering numbers adjustable to 7 days before			
C7	Deposit and payment schedule; any card surcharge			
C8	Named overall coordinator and deputy			
A1	Day 0 access as specified; talk rooms set and tested before Day 1			
A2	Staff for early, late, Day 0 and Day 5 access quoted			

ID	Requirement (summary)	Response	Cost	Notes or alternative
A3	Our rooms exclusive; other events, shared areas and catering separation disclosed			
A4	Room changeovers quoted			
R1	Real seat counts after staging, AV and aisles			
R2	Shared or visible rooms identified			
R3	Floor plan with room names and capacities			
D1	Day 4 layout change deadline and cost			
D2	Day 4 overnight changeover quoted			
AV1	Per-room list of installed and added AV, with costs			
AV2	Stage, head table and lighting per room: included or cost			

ID	Requirement (summary)	Response	Cost	Notes or alternative
AV3	Technician cover across talk rooms; numbers and hours			
AV4	Line-level audio output from each mixer; connector type			
AV5	Laptop changeovers within 5 minutes			
V1 to V5	Video recording as specified (camera(s), desk audio, composed output, YouTube-ready files, delivery date)			
Option	Live captioning support: audio output, 65-inch on-stage monitor, cabling, power, internet			
P1	Power per location, including strips and labour			
F1	Included furniture per room and area			
F2	Furniture set-up labour			

ID	Requirement (summary)	Response	Cost	Notes or alternative
F3	Lounge and quiet room furniture			
F4	Limits on venue furniture stock			
G1	Registration desk, storage space and power; any merchandise sales fee			
G2	Fixed registration counters and second area			
G3	Signage included, extra costs and artwork deadlines			
G4	Digital signage updates during the event			
G5	Our own banners and pull-ups allowed; fixing rules			
G6	Use of venue flag poles			
X1	Exhibition layout fits; adaptations costed			
X2	Stand footprint: 2 m table, staff space behind,			

ID	Requirement (summary)	Response	Cost	Notes or alternative
	visitor space in front (about 3 x 3 m; all stands the same size)			
X3	Mandatory stand items and carpet colour options			
X4	Stand furniture swaps (with our approval): prices and deadline			
X5	Screen hire prices; roll-ups allowed; any limits or fees on sponsor equipment			
X6	Exhibitor handbook with prices provided			
X7	Sponsor access from 12:00 Day 0 and 07:00 Days 1 to 3			
X8	All sponsor extras billed directly to sponsors			
L1	Lockable office of 25 m² or more, Day 0 to Day 5			
L2	Shipments accepted from 7 days before			

ID	Requirement (summary)	Response	Cost	Notes or alternative
	Day 0; address and labelling			
L3	Shipments delivered to us, or available to collect with trolleys			
L4	Required or recommended forwarder and prices			
L5	Customs requirements for non-EU shipments			
L6	Return shipments held for courier collection			
L7	Waste and packaging charges			
K1	Exclusive caterer quoted; corkage or outside catering fees			
K2	Water provision throughout the day			
K3	Dietary requirements at no extra cost			
K4	Catering minimums and final-number deadline			

ID	Requirement (summary)	Response	Cost	Notes or alternative
K5	Evening reception quote			
W1	Custom SSID with no captive portal (preferred)			
W2	Total bandwidth and per-device limits
