PGConf.EU Venue Requirements 2027

Introduction

PostgreSQL Conference Europe (or PGConf.EU) is an annual conference held in Europe for users and developers of the PostgreSQL open source database management software and related tools and projects. It has been running since 2009, with the exception of 2020 and 2021 due to the pandemic.

Recent past events have been at the Radisson Blu Riga (675 attendees) in 2025, the Divani Caravel in Athens in 2024 (782 attendees), Clarion Congress hotel in Prague in 2023 (722 attendees), and the Berlin Marriott in 2022 (sold out a month prior to the event with 604 attendees). The 2026 event will be held at the Palacio de Congresos, Valencia, Spain in October, with a projected 800 attendees.

We require conference space, AV, and food/drink, for 3 days of conference sessions, both plenary and breakout, for a minimum of 700 attendees, and potentially up to 8-900 attendees and 1 day of breakout sessions/meetings in smaller groups. We're looking at dates in late October, preferably Tuesday to Friday, but alternatively Monday to Thursday.

PGConf.EU Event Spec

Conference (Days 1, 2, 3)

Total number of attendees	700-900
Plenary Room	700-900 attendees, theatre style. Can use the same space as breakout rooms provided any partitioning can be done in a 30 minute break (including time for attendees to exit and re-enter).
Breakout Rooms	3 x 300+ attendees, and 1 x 200+ attendees, theater or classroom style. Can use the same space as the plenary room provided any partitioning can be done in a 30 minute break (including time for attendees to exit and re-enter). Some flexibility on room sizes is possible.
Video (Plenary & Breakout Rooms)	Suitable video projection or screens for HDMI sources in the plenary and all breakout rooms to allow all attendees to clearly view slides etc.
Audio (Plenary Room)	2 handheld and 2 lavalier microphones with suitable mixer, amplifier, and speakers to allow all attendees to hear presentations clearly. 3.5mm audio jack plug at presenter stage/podium for laptop sound.
Audio (Breakout Rooms)	1 handheld and 1 lavalier microphone in each breakout room, with suitable mixer, amplifier, and speakers to allow all attendees to hear presentations clearly. 3.5mm audio jack plug at presenter stage/podium for laptop sound.
Video Recording	Video recording equipment and staff to operate it should be available as an option in all talk rooms. This should include feeds for both the projected content, and audio/video of the speaker(s). The venue (or their AV provider) shall provide video files after the event, with opening and closing slides (design to be agreed with us), listing the title, speaker, and other talk details on the opening slide, and showing the split slide and presenter views throughout the video. Examples of previous videos include: https://www.youtube.com/watch?v=PNohLdtVNYs https://www.youtube.com/watch?v=7a1otYLZxy4
“Hacker Lounge”	~25 person space with a mix of tables/sofas etc. for attendees to use to meet and work Power available at tables. (details flexible).
Quiet room	Small room (6-8 people size) equipped with comfortable seats and/or sofa and “away from the buzz” for attendees who may need some completely quiet time (not for meetings, for relaxing/recovering).
Optional: Childcare	Up to 12 children, plus carers. Minimal tables for

room/area	activity/eating (details flexible).

Community (Day 4)

Attendees	Up to 300, plus ~12 staff.
Rooms	5 - 6 rooms in classroom or boardroom style, with a minimum of 50 people each in classroom or theatre layout, with enough flexibility to allow for more/less popular sessions (e.g. 3 rooms for 50 people + 3 rooms for 100 people)
Video	Suitable video projection or screens for HDMI sources, to allow all attendees to clearly view slides etc.
Audio	1 handheld and 1 lavalier microphone in the two larger breakout rooms.

General

Office/logistics Space	Minimum 25 square metre lockable room for use as an office and storage/management of sponsor and conference materials. **Must be available from day zero for preparatory work, and should preferably be available for day 5 for tear-down storage**
Registration Desk	3 x 1x2M tables (may be arranged in an L shape) in a suitable prominent area for attendee registration and sale of souvenirs such as T-Shirts etc. At least 1.5M of space must be available behind the tables for boxes of souvenirs and other conference material. Power (regular 230V) must also be available.
Sponsor Stands	Space for roughly 5x2.5m space for 4-5 Platinum sponsors and 2.5x1.5m space for 8-10 Gold sponsors. Each equipped with a minimum of an approx 1x2M table with 2 chairs. Each stand with regular 230V power outlets available. Sponsor stands should ideally be located in high traffic areas such as where food and drink are served. Exact details are somewhat flexible. Sponsor stands will be used on day 1 - 3 only, with setup on the afternoon of day 0.
Sponsor Video	The ability for sponsors to bring their own display screens (LED/OLED etc, not projectors), or to arrange hire of them through the venue's preferred supplier. Day 1 - 3 only, with setup/testing on the afternoon of day 0.
Drinks	Tea/coffee/cold drinks available all day for attendees.
Lunch	Lunch for all attendees on days 1-4.

Evening Reception	Hosting of a reception for all attendees on either day 1 or day 2, with bar service and buffet snacks and nibbles (at no cost to them). “Drink ticket” style distribution is preferred, but other options may be acceptable (with the aim of avoiding a fully open bar). *This is preferred, but not a hard requirement.*
Bedrooms	Attendees are responsible for booking and paying for their own rooms, which are expected to be on a conference rate, directly bookable from a link on our website. Not all attendees choose to stay at the venue; we're happy to negotiate a minimum number of nights. Some attendees will always want to arrive a few days early and stay at least the weekend after, so we would want a rate to extend to those days (but with a smaller group). Note that this requirement only applies to hotel venues.
Wi-Fi	Many of our attendees travel with multiple devices. Wi-Fi and the associated switching, routing, and service must be capable of supporting 1 to 2 devices per attendee. We prefer a dedicated SSID to be configured for our attendees (name and password to be agreed), and no captive portal used.
Accessibility	All areas used by attendees (including plenary and breakout rooms, lounge, sponsor area, food and drink areas and evening reception location) must be accessible without using steps or escalators for attendees with mobility concerns.
